IN THE SUNDAY WORLD.

THE WORLD last Sunday was a remarkably fine newspaper. THE WORLD To-Morrow will be even finer, which is saying a great deal. It will be so full of bright and interesting things that you will feel like binding it and keeping it for future reference. It will contain several times the reading matter of half a dozen magazines, besides all the news, faithfully collected and skillfully presented. It is impossible to give in a brief advertisement an adequate idea of the contents, but the following few selections may afford a faint notion of what this great newspaper supplies for five cents:

THE NAVAL REVIEW.

A completely illustrated forecast of the international parade that is to take place on the North River next week, together with a detailed programme of the various evolutions.

MURDER AND MEDICINE.

These are a few of the many features. All the departments, sport, the drama, music, literature, art, women and children, will be, as usual, faithfully and fully dealt with. To-morrow will be incomplete unless you provide yourself at the first opportunity with a SUNDAY WORLD.
